## SUMMARY

My name is Argya Sabih Elysio, an Information Technology student at Gadjah Mada University. I possess a responsible spirit, adaptability to new environments, concern for my surroundings, discipline, honesty, and always prioritize the common good over personal gain. I possess excellent public speaking, networking, and time management skills. When given assignments, I have the capability of carrying them out individually or in groups. I can solve problems logically and with understanding. I am also highly self-motivated, committed to a cause, passionate about development, interested in new things and eager to learn.
